CompleNet 2009
International Workshop on Complex Networks
May 26–27, 2009, Catania, Italy
http://complenet09.diit.unict.it

Steering Committee
Giuseppe Mangioni, *Univ. of Catania, Italy*
Ronaldo Menezes, *Florida Tech., USA*
Vincenzo Nicosia, *Univ. of Catania, Italy*

General Chair
Giuseppe Mangioni, *Univ. of Catania, Italy*
gmangioni@diit.unict.it

Program Committee Chairs
Santo Fortunato, *ISI, Italy*
fortunato@isi.it
Ronaldo Menezes, *Florida Tech., USA*
menezes@cs.fit.edu

Local Organization Committee
Vincenza Carchiolo, Alessandro Longheu,
Michele Malgeri, Giuseppe Mangioni,
Vincenzo Nicosia
University of Catania, Italy

Program Committee
Alex Arenas, Univ. Rovira i Virgili, Tarragona, Spain
Alain Barrat, CPT Marseille, France
Marc Barthélemy, CEA Bruyéres-Le-Châtel, France
Ginestra Bianconi, ICTP, Trieste, Italy
Haluk Bingol, Bogazici Univ., Istanbul, Turkey
Marian Boguñá, Univ. de Barcelona, Spain
Stefan Bornholdt, Univ. of Bremen, Germany
Dan Braha, Univ. of Massachusetts, Dartmouth, USA
Angelo Brayner, University of Fortaleza, Brazil
Guido Caldarelli, INFM, Rome, Italy
Vincenza Carchiolo, Univ. of Catania, Italy
Claudio Castellano, INFM, Rome, Italy
Aaron Clauset, Santa Fe Institute, USA
Luciano Costa, Univ. de Saõ Paulo, Brazil
Gustavo Deco, Univ. Pompeu Fabra, Barcelona, Spain
Paolo De Los Rios, EPFL, Lausanne, Switzerland
Kwang-Il Goh, Korea Univ., Seoul, Republic of Korea
Roger Guimerá, Northwestern Univ., Evanston, USA
Kimmo Kaski, Helsinki Univ. of Tech., Finland
Alessandro Longheu, Univ. of Catania, Italy
Vittorio Loreto, Univ. La Sapienza, Roma, Italy
Adilson E. Motter, Northwestern Univ., Evanston, USA
Akira Namatame, National Defense Academy, Japan
Sidney Redner, Boston Univ., USA
Eraldo Ribeiro, Florida Institute of Tech., USA
Mariangeles Serrano, IFISC(CSIC-UIB), Maiorca, Spain
Igor Sokolov, Humboldt Univ., Berlin, Germany
Bosiljka Tadic, Jožef Stefan Inst., Ljubljana, Slovenia
Andres Upegui, HEIG-VD, Switzerland
Soon-Hyung Yook, Kyung Hee Univ., Seoul, Korea

Call For Papers

This international workshop on complex networks (CompleNET 2009) aims at bringing together researchers and practitioners working on areas related to complex networks. In the past two decades we have been witnessing an exponential increase on the number of publications in this field. From biological systems to computer science, from economic to social systems, complex networks are becoming pervasive in many fields of science. It is this interdisciplinary nature of complex networks that this workshop aims at addressing.

Authors are encouraged to submit previously unpublished papers on their research in complex networks. Both theoretical and applied papers are of interest. Specific topics of interest are (but not limited to):

- Models of Complex Networks
- Structural Network Properties and Analysis
- Complex Network in Technology
- Complex Networks in Biological Systems
- Social Networks
- Search in Complex Networks
- Emergence in Complex Networks
- Complex Networks and Computer Epidemics
- Rumor Spreading
- Community Structure in Networks
- Link Analysis and Ranking

Original papers in the above-mentioned and other related areas will be considered. Each submitted paper will be fully refereed and undergo a double-blind review process by at least two referees. Accepted papers of registered authors will be published in the conference proceedings to be published by Springer-Verlag as volume of the series of Studies in Computational Intelligence.

Submit your paper electronically in PDF format. Neither hardcopy nor fax submissions will be accepted. Submissions should be printable on a standard printer on common paper formats such as A4 or letter. Submitted papers should follow the Springer format (please visit website for more details). Accepted full papers should not exceed 12 pages in this format.

Some papers may be accepted as short papers and shall be limited to 8 pages maximum. All papers should be submitted electronically through the conference web site (http://complenet09.diit.unict.it)

Workshop Venue
CompleNET 2009 is hosted by the University of Catania, Italy. Catania is the second largest city in Sicily and is situated on the eastern coast, between the Mediterranean Sea and Mount Etna, the largest and most active volcano in Europe. Founded by Greeks in the 8th century BC, Catania has numerous architectural remains dating back to Greek, Roman and Norman ages. Today Catania is a modern commercial city famous in the world for its magnificent historical centre, mainly built in Baroque style, which is also the scene of nightlife. Catania V. Bellini International Airport has direct connections to many international destinations and is only 3 km from Catania City Centre. The Workshop will be held at the University of Catania, Italy. Founded in the 15th century, it was the first university established in Sicily and one of the oldest in Europe. Today the University of Catania hosts about 60.000 students. The weather in May is generally warm and sunny, promising you a pleasant stay.
